Mumbai - 400 094.

### **“Teachers’ Day Message”**

**Dear all,**

**Greetings to you!!!**

*Education manifests an edge for survival and helps to overcome all frailties in life. It creates CURIOSITY – the sole precursor to education and you all as teachers are a conduit who impact the future generation through this sole precursor. You are the ones who channelize this infinite curiosity and manifest it into a holistic mode called education. The way you uplift, encourage and always find yourself in a perfect position to make the best learning environments and experiences that no one can either erase or take it away. The two most important eternal gifts of education are learning and the thirst for it are provided by you to each student. Let all the architects of this nation inspire curiosity and sparkle the desire in students to move towards illumination of humanity’s future. My gratitude to your indefatigable energy and relentless spirit in molding the future.*
