ATOMIC ENERGY EDUCATION SOCIETY
(An Autonomous Body under Department of Atomic Energy, Govt. of India)

डॉ. एल. एम. पंत
सचिव

Dr. L. M. Pant
Secretary

Dear Teachers,

On the auspicious occasion of **Teachers' Day**, I extend my warm greetings and best wishes to all the teachers of the Atomic Energy Education Society.

Teachers are not merely facilitators of knowledge; they are the architects of students' personalities, character and future. For building a developed and empowered India, it is essential to nurture students who are not only knowledgeable but also possess a **scientific temperament, creativity, discipline, leadership qualities and a healthy lifestyle**.

In this endeavour, **Science and Sports** play a vital role. Science develops curiosity, logical thinking, problem-solving skills and a spirit of innovation among students. Science education should go beyond textbooks and examinations and encourage experimentation, exploration, project-based learning and the application of scientific concepts to real-life situations. This will help students develop a scientific outlook and equip them to face the challenges of the future with confidence.

Similarly, **Sports are an integral part of education**. Participation in sports promotes physical fitness while developing teamwork, discipline, perseverance, leadership, cooperation and the ability to accept both success and failure with a positive attitude. It is our collective responsibility to provide every student with adequate opportunities to participate in sports according to their interests and abilities.

I encourage all teachers to give special emphasis to the **balanced integration of Science, Sports and academic learning** for the holistic development of our students. Our objective should not be limited to producing students who excel in examinations, but to nurture **curious, capable, healthy, confident and responsible citizens** who can make meaningful contributions to the development of our nation.

On this Teachers' Day, let us reaffirm our commitment to recognising the potential of every student, nurturing their curiosity and guiding them towards excellence through **knowledge, Science and Sports**.

I extend my heartfelt appreciation to all teachers for their dedication, hard work and invaluable contribution in shaping the future of our students.

With warm regards and best wishes,

(Dr Lalit Mohan Pant)
