WORKSHEET 1/2

L. NO 9 SOIL CLASS VII SCIENCE

1. Soil profile refers to an arrangement within a soil of  
(a) its horizontal layout      (b) vertical layout  
(c) Size of soil particles      (d) None of these
2. Soil formation is a  
(a) slow process      (b) fast process  
(c) rapid process      (d) none of these
3. Which soil horizon contains humus?  
(a) A-Horizon (b) B-Horizon (c) C-horizon (d) Bedrock
4. In addition to the rock particles, the soil contains  
(a) air and water (b) water and plants  
(c) minerals, organic matter, air and water  
(d) water, air and plants
5. Toys, pots, and statues are made up of which soil type?  
(a) Sandy Soil (b) Clayey Soil (c) Loamy Soil (d) None of these
6. The resources provided by nature are called ----- resources.
7. The rotting dead matter in the soil is called -----.
8. In ----- horizon of soil, maximum amounts of soluble minerals are found
9. The soil is formed by breaking down of rocks by the action of wind, water and climate and this process is called -----.
10. The view of soil zones or layers is known as -----.
11. Draw a neat labelled diagram of soil profile.
12. What are the different types of soil based on the proportion of particles of various sizes?
13. Explain in your own words “Soil is an inseparable part of our life”

14. What makes soil as a shelter for many living organisms?

15. What is bedrock?
