What's a beautiful mind?

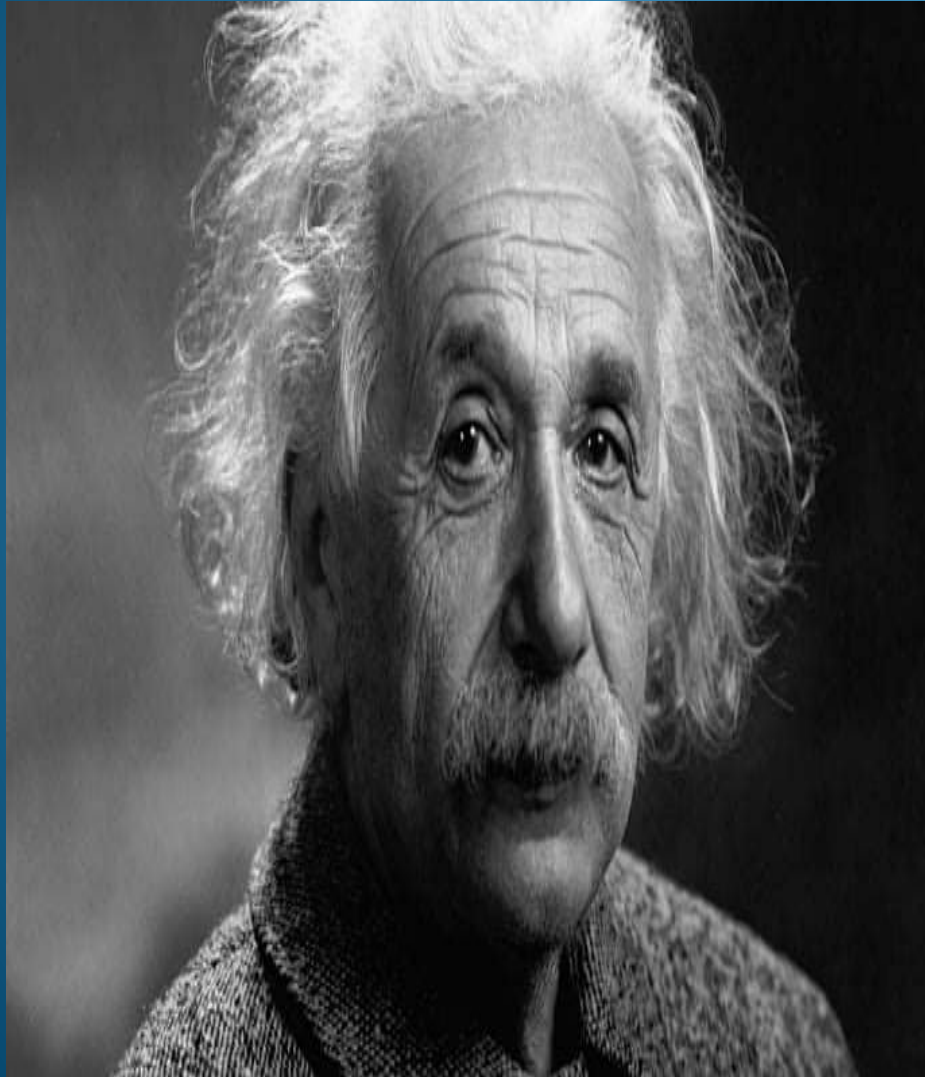

A beautiful mind is one that :

- brings happiness to the lives of others
- is calm ,tranquil and serene
- has a healthy sense of appreciation of things/  
people/situations
- free from judgment and self-criticism  
( a mind that 'knows'- it's clear)
- lives moment to moment with spontaneity

# Albert Einstein

Born in Ulm, Germany  
on 14<sup>th</sup> March 1879

His parents were:  
Herman and Pauline Einstein

Einstein was born in Ulm

## WAS HE DIFFERENT AS A CHILD?

- he began talking late (later than 2 1/2 years)

- he was a loner
- didn't know how to play with other children

- other boys called him 'brother boring'
- he spent most of his time with mechanical toys

When his sister Maja was born he asked his mother 'where her wheels were'.

- He attended school in Munich, Germany;
- He didn't like his school, he later wrote that the spirit of learning and creative thought was lost in strict rote learning.

- Though he did well in school, scoring good marks, he left and got home tutored.

(the city where he attended school)

Einstein developed an appreciation for music at an early age.

He wrote: "If I were not a physicist, I would probably be a musician. I often think in music. I live my day dreams in music. I see my life in terms of music... I get most joy in life out of music."

It was his mother who discovered this talent in him and got him a tutor to teach him the violin.

His favourite subjects were Mathematics, (especially geometry) and Physics.

He received his academic teaching diploma from the Swiss Federal Polytechnic School, Zurich in 1900 in Physics and Mathematics.
