

Class X - Social Science Study Material

Economics : Chapter-1(Module-2)

DEVELOPMENT

PUBLIC FACILITIES :

1. Money in your pocket can't buy all the goods and services that you may need to live well.
2. Income by itself is not a completely adequate indicator of material goods and services that citizens are able to use.
3. Normally Your Money can't buy the pollution free environment or ensure that you un adulterated medicines unless you can afford to shift a community that already has all these things.
4. Money may also not able to protect you from infectious diseases unless the whole of your community takes preventive steps.

HUMAN DEVELOPMENT:

Development of an individual in such a way that he is able to earn and fulfill his materialistic desires

SUSTAINABILITY OF DEVELOPMENT:

1. Since the second half of the 20th century, a number of scientists have been warning that the present type and levels of development are not sustainable.
2. Resources are replenished by nature has in the case of crops and plants.
3. In the case of ground water, if we use more than what is being replenished by rain then we would be over using this resource.
4. Consequences of environmental degradation do not respect national or state boundaries.
5. Sustainability of development is comparatively a new area of knowledge in which scientists, economists, philosophers and other social scientists are working together.
